WELL DONE.

The ticket nominated at the Repub-
lican county convention yesterday
is as certain to be elected by a
solid majority as the election day
is to come.

This is so for the very significant
reason that it is made up of men of
splendid ability and unexceptionable
character who represent the definite
principles and who enjoy the complete
confidence of the electorate in
which they live. The ticket is the
truest sense representative of the
city, not in Albuquerque and Bernalillo
County, and bears the ineffaceable
stamp of efficiency and decency.

The strength of the Republican
ticket is sharply contrasted to the
watched weakness of that put out
recently by the coalition of Democ-
ratic and Republican bushwhackers.
The shamed-to-wink of past office-holders and新生的 office-seekers which marked the so-called
"conventions" whose joint work re-
sulted in the mortified ticket put before
the people of Bernalillo County,
is too recent history to need any com-
ment here. It is sufficient to say
that it was an insult to the intelligence
and decency of the community
which is certain to meet with a severe
rebuke by the voters on election day.

The gentlemen nominated by the
Republican convention yesterday are
sure to be made the target of all the
lying abuse and filthy venom which
the malignant brain of the morning
organ of their hybrid opponents can
invent. This is the penalty that they
pay for their courage and adherence
to conviction, and they are doubtless

conscious of what may well have in store
from their enemies. It is either
that they will be successful or the
whole administration of the state
will be undermined and the
government a hollow shell.

POOR OLD SUMP.

It is quite evident that the ribos-
e side of the Journal-Democrat
has been助长ed by our calling at
various times to striking resemblance
to the situation that happened last
year when chief characteristic
of the whole chief characteristic
was that it changes its color to conform
to that of the object on which it
depends to live.

It was quite like the same-headed
Journal-Democrat to conceive, when
it made its political back-somersault
into the Democratic party, that the
same class objects for office it is now
representing would forget that they had
recently been made the objects of
treacherous methods of warfare that are
now being used in their behalf.

It was also thoroughly characteristic
of the poor sump that it should conceive
the position it has taken as a
false assertion in a public speech
and upon being confronted with the
recent growing of facts seriously
blames the entire incident.

As we have before had occasion to
remark, the holders of public land
by Mr. McDonald and his various
corporations while transacting with
main possibilities or danger to the
people if he should be chosen govern-
or. A man may hold untold
thousands of acres of public land and
yet be scrupulously honest and emi-
nently able to discharge the duties of
high office, and the man who will
tell a deliberate falsehood is by
reason of his moral infelicities unfit
for any position of trust whatever.

The use of the "short and salt
word" is extremely disastrous to the
Evening Herald, especially as it
consists of the discreditable methods
being used in Mr. McDonald's behalf
that the people of New Mexico whose
affections are asked for Mr. McDonald
are entitled to know the facts.
If Mr. McDonald or his friends will
suggest an expression which will con-
vey an adequate idea of the offense
of which he stands self-condemned we
will eventually use it instead of that
word.

WHAT A DIFFERENCE.

It is impossible to emphasize too
strongly the contrast between the
methods employed by the speakers
who have appeared before the Albu-
querque people in behalf of the dif-
ficult candidates for governor.

Less than a week ago a meeting
was held in this city in the interest
of the candidacy of W. C. McDonald.
The meeting was addressed by Mr.
McDonald himself, by one of his lead-
ing supporters in this state and by an
important congressman. The most
noticeable thing about the speeches
delivered was the entire absence of
argument on any of the issues of the
campaign and the indifferent personal
attack leveled by all the speakers on
the front of the Republican candidate
for governor.

The "good government" advocated
by Candidate McDonald is no good
to be true—or at least we should infer
so from the fact that he won't tell the
truth.

It's a cliché that when Tom Mc-
Millan is sheriff the borders will not
be allowed to exercise in the open
air while the deputy in the adjoining
room dreams sweetly of "good govern-
ment."

If the Journal-Democrat doesn't
only use the words "good govern-
ment" in its headlines it is to its loss some
of those 276 Democratic subscribers.

The necessity of telling the truth
about his holdings of public lands is
another thing that Candidate Mc-
Donald declines to take seriously.

It was altogether appropriate that
the patriotic flood should be received
so cordially at Las Cruces by the non-
resistant Burchett.

Mr. Flood should really not be so
biased on us. It was Collier's Weekly
that first called attention to the mat-
ter.

A party that is making a cam-
paign of men and not of principles
ought at least to tell us a man that
can tell the truth.

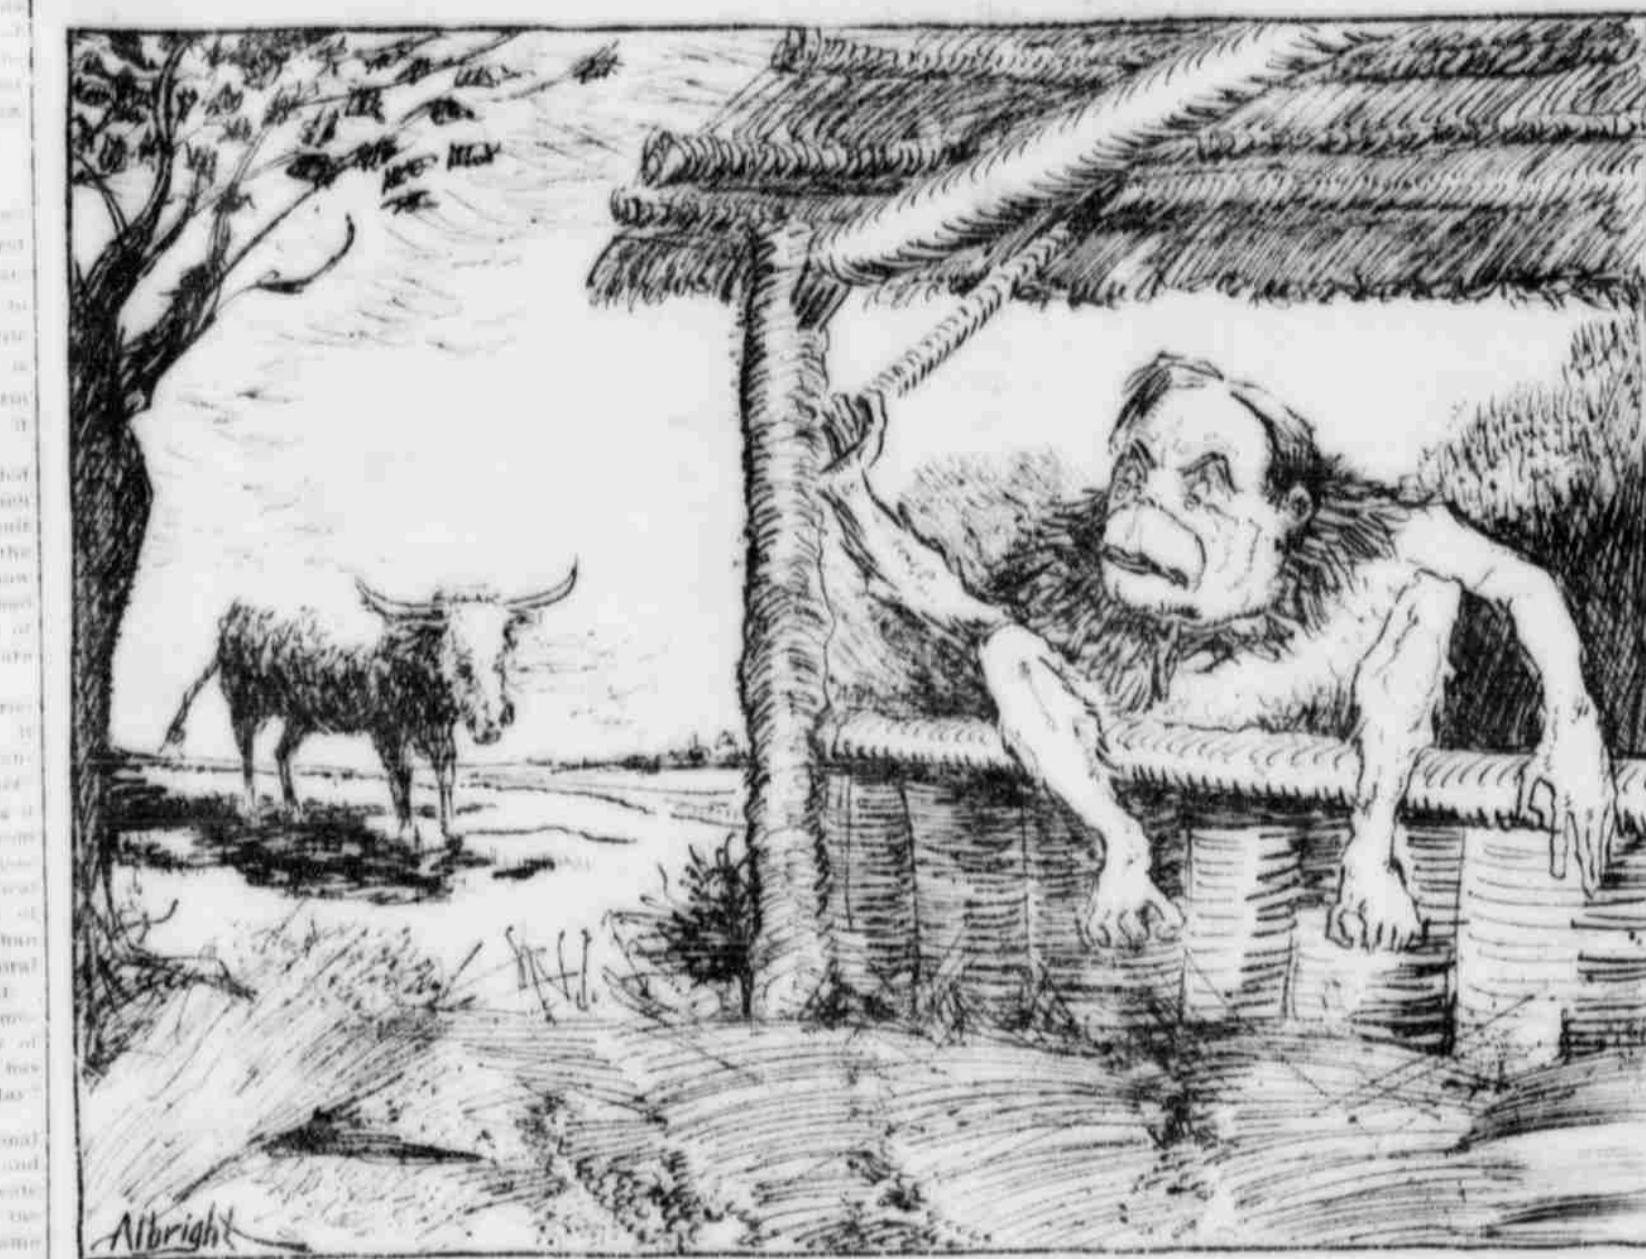

Strange that "young young however"
Mann was omitted from that "non-
partisan" gathering in Las Cruces.

NEW MEXICO PERD.
In his address at the Elks' dinner
last night Tom Thomas C. Carson
represented in a most skillful manner
the part of the people of New Mexico
in the election of the Democratic
ticket and the putting in effect
of the Democratic free-trade policy.

This is a subject which the De-
mocrats and bushwhackers can not
fail to discuss under any consider-
ation, but it is one in which the
people of the state are taking a lively
interest, and which all thinking men
realize is of the utmost importance
at this time.

As Mr. Carson pointed out, the
money brought into the state from
outside sources through the sale of
gold is by far the largest part of the
income of the people of New Mexico,
and the threatened reduction of that
income to a point where the sheep-
raising industry can not possibly be
continued with profit means that in
the event of Democratic success the
people may expect, instead of the
prosperous conditions which have al-
ways obtained under Republican
administrations, a life-and-death strug-
gle for their bread and butter.

And yet, to the teeth of the fact

THE SELFISH DOG IN THE MANGER OF THE PEOPLE

There is an old story about the dog that ate in the manger and
wanted to eat out of it too. It is an old story and it has endured
through the ages because it illustrates a wide nature
that can be found with some people in any community.

The dog sat at the bar but he persists in preventing the ok
from eating it.

Those who have lived for any length of time in New Mexico, and
especially those who live in Bernalillo County, have already guessed
what this picture represents.

The traits of selfishness and absolute impudence so dominate
the little-syndicate or political presignataries that seek to influence the
voters in New Mexico at the coming election that the MORNING
JOURNAL, and its like, are recognized at once in the familiar trick
of depriving the public of what it is justly entitled to.

Right now it is time to try to make the people realize that
the office-holders who have INCREASED THE TAXES in Bernalillo
County, &—PAST FIVE YEARS, should hold the job again while the
TAX rate goes merely upward, and that a dozen passing and regular
reforms are left further in the background. They are having two
politicians who have been caught in the act of giving a dollar a piece
for votes in the rural districts, \$100 (the sum of five dollars more
per vote on election day). They know this heavy load of investment
will return many fold to their coffers. W. H. GILLENTWATER and
JESUS ROMERO, both priests to the subjects of reform, know it
is for GRAB, and they know what that grab has been on the past
and what it will be in the future—if their mission of compelling the
voters to elect Gillettwater appears, including Romero and the
members of Romero's family to count other successes.

IT IS THE PEOPLE'S MONEY, AND THE PEOPLE HAVE A
RIGHT TO IT. It should NOT be promised to GILLENTWATER at
\$10,000 a mile for holding roads, or promised to ROMERO for al-

lowing a dozen convicts to escape from the county jail. It should
NOT be for a "business administration" which does these things
while the others TAX RATE goes HIGHER AND HIGHER EVERY
YEAR.

Precisely the same incompetent office-holders who
brought about these conditions, are on the so-called
ticket of the so-called Democrats asking four your vote,
so that they can get back and do the same thing again.
Instead of going forward, Bernalillo county is going backward.

This is what the left hand of the povery syndicate is doing.

"What is RIGHT HAND doing" is in the STATE ELECTION.

It has agreed to help the national organization of Democrats of
which Shimp Flood is a sample, in their move upon the national
checkered board, to get two new DEMOCRATIC states in the union.
This would mean that the Democratic national policy of FREE WOOL,
WHICH IS THE PRINCIPAL ISSUE IN THIS CAMPAIGN, would be
adopted, and the PANIC OF 1893 would be repeated with graver consequences. THE PURITY SYNDICATE WELL KNOWS THIS.

CHAIRMAN MCDONALD, the man who lies about his vast holdings
of cattle land, has written to the chairman of the Democratic
campaign committee ALL OVER THE COUNTRY, in a nice circular
letter to MONEY TO BE USED IN THIS ELECTION. In this letter he
makes this "BALANCE OF POWER" a principal argument. HE
KNOWS that the success of the Democrats could bring about a
PANIC among the common people of New Mexico, AND HE IS OUT
WITH A BAG OF MONEY TO SECURE VOTES FOR THIS CAUSE.

A DOG IN THE MANGER! The cunning and greedy JOURNAL
DEMOCRAT is working in the credits of the new state.

ARGUMENT, NOT MUD

Continued from Page One.

BOLTERS SHOULD HAVE STANDING IN THE BANKS

If our progressive friends in the
syndicate could have let them little
bolters to stand in there banking structures,
they would be there banking structures.

Arturo should have been in the
banking with the police—Arizona Advo-

cates.

BUT THE DONKEY WILL ALWAYS BEAR

When Arizona can go to a point so
as to hold a Democratic candidate and the
little syndicate and give him the
banking, conscious bitterness which has
characterized the attitude of the Democratic
speakers towards Mr. Burchett.

Referring to the charges of C. M.
McDonald that New Mexico has been
ruled by a so-called Democratic

"ring" for many years, Judge Hall
made a telling point when he pointed
out to his hearers that if this is true W.

C. McDonald has been part and par-

tial of the "ring," because for many

years he has held the office of mem-

ber of the cattle sanitary board under

the appointment of successive Re-

publican governors and continues under
the "ring" which he is denouncing.

Hon. Thomas R. Carlton, of Santa

Fe, the next speaker, delivered an
address which will long be remem-
bered for its convincing logic and
sound force.

Arizona must have a

right to a very reasonable price

for its sheep.

These silly morning and evening

call on contractors houses.

We have just received a big line of

the estimated Bernalillo Feb. Sheep

and Javelinas for men, women and

children and can buy what you want

at a very reasonable price.
